VOLUME 2, ISSUE 4

APRIL 2024

## INSIDE THIS ISSUE:

Text the City! 1

Spring Weeds 1

Spring Cleanup 2

## Text My Gov / Utility Account Updates

The City of Yuma is striving to have stronger communications with our citizens in Yuma. We are implementing a program called Text My Gov. This program allows the City to send notifications to citizens cell phones with various information, such as power outages, water leaks, street closures, etc.

Citizens may also notify the City of issues that need to be addressed through a text message.

We are including a flyer regarding Text My Gov for your information.

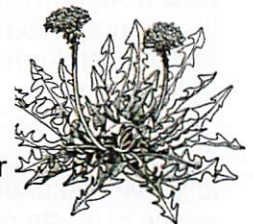

Also, with this, the City is trying to get everyone's accounts updated with cell phone numbers. The Text My Gov service will not work with a land line phone number, so we need a cell phone number for the service to work for your address.

If you would like to update your utility account with a cell phone number, please fill out the enclosed form with your cell phone number and updated utility information. The form must be signed by the person whose name is on the utility bill for us to update your account.

## Spring Weeds!

The need to regulate the growth of uncontrolled weeds and other vegetation includes: the prevention of fire hazards, the removal of obstructions that interfere with streets and sidewalks, prevention of noxious weed infestation, and neighborhood preservation.

Weeds tend to overgrow or choke out more desirable plants, such as desired crops, flower gardens and groundcover, and may become detrimental to public health.

The City of Yuma has ordinances in place which prohibit the accumulation of weeds, brush and other refuse on any premises. These are in place to prevent unsightly and hazardous conditions which keep our community safe and inviting.

# Spring Cleanup

## Annual Spring Cleanup: Guidelines and Regulations

For years, the City of Yuma has offered semi-annual cleanup events to its residents, serving as a complimentary community service aimed at maintaining the city's cleanliness and enhancing the quality of life for our inhabitants. As with many services, the costs associated with these cleanup initiatives have risen considerably over time. The city has certain guidelines and regulations to streamline the process and ensure the sustainability of this service.

### Schedule and Deadlines

The upcoming Spring Cleanup event is scheduled for the week of April 14<sup>th</sup>. Residents need to have all their waste and metal items placed out for collection by this designated time. It's crucial to note that our crews will not return for additional pickups once the scheduled collection has taken place. Items can be placed in the alley no sooner than two weeks before the cleanup date.

To optimize efficiency and minimize costs, the city has established a clear list of prohibited items for pickup:

### Prohibited Items:

- Mattresses and box springs
- Batteries
- Appliances
- Tires
- Paint cans
- Hazardous materials
- Electronic devices
- Concrete
- Major construction debris
- Chemical containers

### Tree Limbs and Yard Waste

Residents are advised to prepare tree limbs by cutting them into manageable 3-foot sections. Additionally, these sections should be boxed, bundled, or bagged for ease of collection. Yard waste, when properly prepared, contributes to a smoother cleanup process and facilitates the disposal of organic materials.

### Additional Information

It's important to note that our cleanup crews will not pick up commercial piles. Moreover, for any inquiries or additional information regarding the Spring Cleanup event, residents are encouraged to contact City Hall at 970-848-3878.

As stewards of our community, it's incumbent upon all of us to contribute to the success of the Spring Cleanup initiative by adhering to the established guidelines and regulations. By working together and exercising diligence in waste disposal, we can ensure the continued effectiveness and sustainability of this service for years to come.
